

# AI Act: Key milestones since publication in the Official Journal

**01 August 2024**  
Entry into force

**02 May 2025**  
9 months after entry into force  
**Availability of "Codes of Practice" for AI model providers**

**02 August 2026**  
24 months after entry into force  
**General applicability of the other regulations, for example innovation measures such as AI sandboxes**

**02 August 2030**  
72 months after entry into force  
**Obligations of providers and operators of high-risk AI systems intended for use by public authorities**

 The AI Act only applies to operators of high-risk AI systems that were placed on the market or put into operation within 24 months after entry into force if these systems are subject to significant changes to their design from that date onwards

**12 July 2024**  
**Publication in the Official Journal of the Union**

**02 February 2025**  
6 months after entry into force  
**Applicability of Chapters I and II (General provisions, Prohibited AI systems)**

**02 August 2025**  
12 months after entry into force  
**Notification obligations, AI governance; regulations for AI models; confidentiality; fines and other enforcement measures**

**02 August 2027**  
36 months after entry into force  
**Obligations in relation to high-risk systems; obligations for CI model providers whose model was launched on the market 12 months before entry into force**

**31 December 2030**  
**Obligations for AI systems that are part of large European (information) IT systems (e.g. Schengen Information System, Eurodac)**
